ASA Electronics® Launches Voyager® Website for Commercial Industry

FOR IMMEDIATE RELEASE

ELKHART, IN. – ASA Electronics has officially launched VoyagerCameras.com, the online home of the most trusted observation brand on the road. The Voyager website will serve as a retail storefront and resource library, geared toward customers in the commercial industry.

“It was important to us to establish a strong online presence for the Voyager brand so our existing customers can easily find the products they need and to help new customers discover everything we have to offer,” Commercial Vehicle Industry Manager, Joe Camacho, said.

Customers can easily browse Voyager’s various observation and safety products by vehicle type to find a solution that fits their needs. The site also provides a full library of product literature, from product specifications to owner’s manuals.

Customers looking for more specialized recommendations will have the option to “get a quote” for observation and safety programs that best suit their vehicle or fleet, whether that means suggesting specific existing products or developing more customized solutions specifically for them. VoyagerCameras.com includes a variety of options to connect customers with our trained sales and customer service teams to help answer additional questions.

ASA Electronics® has been designing and manufacturing mobile electronic products for the Marine, RV, PowerSports, Agricultural, Construction, Commercial Vehicle, and Bus industries since 1977. Their proprietary brands are JENSEN®, JENSEN Marine®, JENSEN Heavy Duty®, iN-Command®, Marine Audio®, Voyager® and ADVENT® Air. ASA is also a distributor in specialty markets for SiriusXM® Satellite Radio, Polk Ultramarine®, Klipsch®, and XKGLOW® products. For more information, please visit www.ASAElectronics.com.
