

///A new age  
of RV comfort.

2026

///ADVENT<sup>®</sup>  
AIR

# ///The Future of Cool.

Advent Air® is entering a new era. For the first time in ten years, we've reimaged everything from the ground up—with fresh designs and breakthrough products on the way.

## – All-New Designs –

We've completely re-tooled the ceiling assemblies and rooftop units to give the whole system an updated look and feel.

## – Improved Efficiency –

Our new AC units contain the latest R32 refrigerant for the most efficient cooling available in recreational vehicles.

## – New System Components –

Upgrades are now available for the tens of thousands of systems already in the field. Our new thermostat can now be controlled with our new remote control, giving you greater command of your RV's AC.

### Standard AC Unit

- 115 volt AC power
- Rigid, metal base pan
- Clean Air Act compliant\*
- Premium, thick, water-tight vent opening gasket with six dense foam support pads
- Installs in standard 14.25" x 14.25" vent opening
- Water-resistant front panel (IPX6)
- UV-resistant finishes/materials (ASTM D4329)
- Corrosion-resistant marine grade materials

| STANDARD  | WHITE          | BLACK          |
|-----------|----------------|----------------|
| 13.5K BTU | <b>AAC135W</b> | <b>AAC135B</b> |
| 15.5K BTU | <b>AAC155W</b> | <b>AAC155B</b> |

### Bluetooth Thermostat ACTH25

- New and improved design
- Can be operated with Advent Air remote control (ACTH25REM)
- Easy upgrade from original Advent Air thermostat

### Bluetooth Remote Control ACTH25REM

- Controls Advent Air Bluetooth thermostat (ACTH25)
- Display mirrors thermostat display

## /// Your comfort is our commitment.

Giving you the freedom to travel farther, stay longer, and make the road feel more like home is our mission.

Welcome to the next generation of mobile comfort.

Welcome to the new Advent Air.

*Coming soon...*

### Ducted Ceiling Assembly Kit with Digital Thermostat

#### AACDC

- Features **FlashFreeze** Technology
- Compatible with Advent Air R32 rooftop AC units

### Non-ducted Ceiling Assembly AACNDC

- Digital temperature display
- Capacitive touch controls
- On-board temperature, fan speed and mode controls
- Compatible with Advent Air R32 rooftop AC units
